## **Jet+250**

### **With the right franking machine, your mail means business**

The Jet+250 from MSL is a powerhouse franking machine offering advanced features at a very low cost. Using Hewlett Packard inkjet technology the Jet+250 prints a digital frank which makes your mail look more professional.

We know you want to control costs, so when you place a letter or small package on the integrated scale the Jet+250 will automatically set the correct postage amount. You could save up to 20 in postage costs with this easy one-step operation.

The Jet+250 lets you refill postage without ever leaving the office. Just plug the Jet+250 into a phone line enter in the amount you need and follow the on-screen prompts. The Jet250 internal modem dials out and downloads the postage from Credifon.

With built in security features and error warning the Jet+250 is the obvious choice for small businesses. State of the art technology ensures this franking machine will meet your mail management needs and Royal Mail standards today, tomorrow and well into the future.

Save time Save money Save hassle make the move to professionally franked mail with the Jet+250.

## **Jet+250 Features**

<b>Feature</b>	<b>Description</b>
<b>Automatic Date Change</b>	The franking machine updates itself to the correct date every day, eliminating mail posted with an incorrect date.
<b>Internal Modem</b>	Allows you to download postage over your phone line so you never have to make another trip to the post office to refill your franking machine.
<b>Inkjet Printing</b>	Digital inkjet printing offers crisp, clear impressions and gives your mail a more professional look. Its digital technology prevents fraudulent use and exceeds the most stringent security requirements of the Royal Mail.
<b>Cartridge Life</b>	Typical users only need to replace the ink cartridge about once every six months.
<b>20 Letters per minute</b>	The <b>Jet+250</b> prints great looking franked impressions in a flash.
<b>Integrated 2kg Weighing platform</b>	The <b>Jet+250</b> has the most common postal rates integrated into the machine. Just place your mail onto the weigh platform and the system automatically sets the precise postage, ensuring you don't have to pay more than you have to.
<b>8 Standard Slogans</b>	8 useful messages and slogans to help make your mail look more professional.
<b>2 Custom Slogans</b>	You can have your logo, return address, or other custom image scanned and loaded into the franking machine so even your postage promotes our business.
<b>Maximum Envelope Thickness</b>	The <b>Jet+250</b> directly imprints envelopes containing brochures up to 8mm, catalogues and multiple page mailings with ease. For items that are too thick you can print on postage labels.
<b>Low Postage &amp; High Value Warning</b>	You configure a set limit to warn when it's time to refill the franking machine so you never run out of postage at crucial times. Also, a high value warning can be set to prevent overpaying of postage.
<b>Easy Postage Rate Change</b>	Software for rate changes is simply loaded in the franking machine using "SmartCard" technology.
